CORE SKILLS

Backend & APIs

Node.js, Express.js, REST APIs, JSON services, JWT auth, MongoDB, SQL

Cloud & Platform

AWS (Amplify, Cognito, S3, Lambda, API Gateway), Heroku

Frontend

React, TypeScript, responsive design, modular components

Practices

Git, CLI workflows, agile delivery, cross-functional collaboration

EDUCATION

Full-stack Web Development

Zuitt Coding Bootcamp Philippines
2021

Built Node.js/Express.js + MongoDB backends and React frontends; deployed to Heroku and GitLab.

BS, Computer Engineering

AMA Computer College — Calamba Campus
2015 – 2018

CERTIFICATIONS

- IT Coding Bootcamp for Full-stack Web Developer — Zuitt Coding Bootcamp Philippines

HARRY LAGUNSAD

SENIOR BACKEND & MODERATION ENGINEER (NODE.JS / AWS)

PROFILE

Senior full-stack engineer with 5 years of experience building and operating web applications, with a focus on Node.js backends and AWS services. Combines hands-on development with team leadership to deliver secure, scalable APIs and admin tools. Experienced with AWS Amplify and Cognito, RESTful services, and modern JavaScript/TypeScript stacks, and comfortable designing moderation-style workflows and logging that support trust & safety and operational teams.

EXPERIENCE

Freelance Full-Stack Developer

Jan 2026 – Present

Independent · Remote

- Build and deliver full-stack web applications for clients using React, Node.js, SQL, and AWS.
- Design RESTful APIs, authentication, and cloud deployments tailored to each project's requirements.
- Manage engagements end-to-end — from scoping and development through deployment and ongoing support.

Team Lead / Fullstack Web Developer

Oct 2022 – Present

SparkSoft Solutions Inc. · Quezon City, Philippines

- Lead a team delivering full-stack web applications using React on the frontend and Node.js/AWS services on the backend.
- Design and implement backend APIs that support admin workflows, reporting views, and operational tools, including authentication and authorization.
- Work extensively with AWS services and Amplify to deploy scalable, secure web applications and manage environments.
- Collaborate with stakeholders to clarify requirements, refine backlog items, and ensure high-quality, predictable delivery.

Junior Software Developer

Jun 2021 – Jun 2023

SparkSoft Solutions Inc. · Quezon City, Philippines

- Developed backend services using Node.js, Express.js, MongoDB, and JWT-based authentication.
- Built and maintained RESTful APIs consumed by web frontends and internal tools.
- Contributed to bug fixing, feature implementation, and performance improvements within a small engineering team.

Customer Service Representative

Feb 2018 – Sep 2020

WHG Customer Service Philippines Inc. · Taguig, Philippines

- Provided customer support across multiple channels, building strong communication and problem-solving skills now applied in engineering leadership.
